

Create a IBM Watson IOT platform and device

Team ID	PNT2022TMID00975
Project Name	IOT based safety gadget for child safety monitoring and notification

PROCEDURE:

Step 1: login into IBM CLOUD account

Step2: click on catalog and search for IOT platform

Step 3: Then search for IOT Watson platform then click on create

Step 4: Then click on add device and give the device type and necessary details then click finish

Step 5: Finally, IOT Watson platform is successfully created

Screenshots of IBM Watson IOT platform and device:

The screenshot displays the IBM Watson IoT Platform interface. The browser's address bar shows the URL: `waue52.internetofthings.ibmcloud.com/dashboard/devices/drilldown/DEEPALAKSHMI:DEEPALAKSHMI?returnTo=/devices/browse`. The top navigation bar includes the IBM logo, a search bar, and the user's email `deepalakshmimb@gmail.com` with the ID `waue52`. The main content area is titled "Device Drilldown - DEEPALAKSHMI" and features a sidebar with navigation options: "Device Credentials", "Connection Information", "Recent Events", "State", "Device Information", "Metadata", "Diagnostics", "Connection Logs", and "Device Actions". The "Device Credentials" section is active, displaying the following information:

Organization ID	waue52
Device Type	DEEPALAKSHMI
Device ID	DEEPALAKSHMI
Authentication Method	use-token-auth
Authentication Token	4cTwCU+1yh1?!+j@l

A warning message states: "Authentication tokens are non-recoverable. If you misplace this token, you will need to re-register the device to generate a new authentication token." Below this, a link provides instructions: "Find out how to add these credentials to your device".
